

DURA-BLOK™ Rooftop Supports

Eaton's DURA-BLOK™ supports are made from 100% recycled rubber and are designed to provide an economical and cost effective way of supporting pipes, HVAC systems, roof-top walkways, ducting, solar, cable tray etc. on any type of flat roof or other flat surface.

- Suitable for all types of flat roofing materials; No penetration of roof material is required
- Product composition is not sharp or abrasive
- UV resistant, 100% recycled rubber, dampens vibration
- Will not float or blow away
- Highly versatile; the ideal support system for pipes, conduits, HVAC ducts, solar and much more
- Reflective strip on both sides allow for easy and safe product visibility
- Effectively accepts screw fasteners for securing accessories

| |  |  | Product Finish | Flange Size HxWxL (mm) |  |  |
|----------|--|---|-----------------|------------------------|---|---|
| 12359213 | DBP | Rubber Block | 101 x 152 x 244 | 225KG | 1 | |
| 12359214 | DBM | Rubber Block | 101 x 152 x 122 | 90KG | 1 | |
| 12359549 | DB5 | Rubber Block | 127 x 152 x 122 | 90KG | 1 | |
| 12359219 | DB10 | Rubber Block | 127 x 152 x 244 | 225KG | 1 | |
| 12359240 | DB20 | Rubber Block | 127 x 152 x 513 | 450KG | 1 | |

Load Capacity = Uniform Load

Channel fitted to DB5, DB10 and DB20 accepts many standard fixing systems, including standard slide nuts.
